

ARE WE THE EXPERIMENT?

Are illegal weather modification programs poisoning us and contaminating our land, water and air?

HERE ARE THE FACTS, YOU DECIDE.

OVER THREE DOZEN SHASTA & SISKIYOU COUNTY LAB TEST RESULTS TAKEN FROM SNOWPACK, RAINFALL, POND & DUST SAMPLES, SHOW "OFF-THE-CHART" LEVELS OF ALUMINUM, BARIUM AND STRONTIUM!

Tests performed by BASIC LABS, a state certified Lab in Redding California

Mt Shasta 6/22/08

Alarming Local Lab Tests Reveal Accumulated Contamination

Tests performed by BASIC LABS, a state certified Lab in Redding California

A Lake Shasta sample from Pit River Arm tributary tested at 4,610,000 ug/l (ugl=ppb or parts per billion), over 4610 times the MCL (maximum contaminant level) for aluminum in drinking water for the State of CA.

A pond in Shasta County in a "filtered location" (forested hilltop away from any highway or industry), tested "0" for aluminum when filled.

After 1-1/2 years exposure to the atmosphere, the pond tested at 375,000 ug/L or 375 times the MCL

Recently, snow pack sample taken from Ski Bowl on Mt. Shasta, tested at 61,100 ug/L or 61 times the MCL for aluminum in drinking water for the State of CA.

FAST TRACKING "WEATHER MODIFICATION" BILLS IN CONGRESS: U.S. Senate Bill 1807 & U.S. House Bill 3445:

While the US Government continues to deny the existence of these weather modification programs, Congress IS NOW planning to legalize such schemes. *If weather modification programs are not being conducted, then why is this Bill needed, even fast tracked?* These programs are to be conducted with no publicly disclosed oversight whatsoever. Farmers from Texas to Nebraska have made a public outcry about the altered weather patterns due to weather modification programs openly conducted in their states. *Weather modification programs are fact, not fiction.* Nearly one hundred publicly disclosed programs were conducted in the continental US last year. A similar number are expected to be performed this year.

All military programs are considered classified and remain unpublicized.

US Government Issues Alarming Patent To Hughes Aircraft

From U.S. Patent # 5,003,186 - Filed April 1990.

(SEE for yourself at www.uspto.gov, then search by patent number)

Stratospheric ... Seeding For Reduction Of Global Warming

...the particle seeding should be done at an altitude on the order of 10 kilometers. The particles may be seeded by dispersal from seeding aircraft...solution to the problem of global warming involves the seeding of the atmosphere with metallic particles...it is therefore an object of the present invention to provide a method for reduction of global warming due to the greenhouse effect.

* 2. ...said material comprises one or more of the **oxides of metals.**

3. ...said material comprises **aluminum oxide.**

(There are dozens of weather modification patents that include various forms of climate alteration and artificial cloud formation.)

- The US military has openly stated that it is their goal to "OWN THE WEATHER" by 2025
- Atmospheric physicists state that a naturally occurring vapor trail can last only 60-90 seconds maximum, under the most extreme conditions.
- German scientists and meteorologists have exposed and are taking legal action against the German government for weather manipulation and counterfeiting satellite and radar imagery to mask the scope of those operations.
- The last RAIN TEST taken (Shasta County) in May of '08 was hundreds of times the range of "normal" for aluminum and seven times the MCL (maximum contaminant level)
- Concerned Citizen groups have formed in all major western US population centers with SIMILAR TESTING RESULTS! Major cities throughout the NATO nations are seeing public unrest and a demand for truth. Aluminum, Barium and other known weather modification agents are being found world-wide at horrifying levels.
- Shasta County Air Quality staff stated that testing would cost from five hundred thousand to one million dollars when in fact, each test is \$21. Lab tests for Siskiyou and Shasta County residents were performed by a state certified lab in Redding
- According to the National Center for Atmospheric Research, the only way to form artificial clouds in warm dry air is to introduce enough particulates into the atmosphere to attract and accrete all available moisture into visible vapor. If repeated often enough, the resulting rainless haze can lead to drought.
- Numerous studies have connected aluminum exposure to neurological damage (like Alzheimer's) and a host of other diseases. It is very detrimental to soils, changing PH levels, and lethal to many forms of aquatic life.
- Atmospheric conductivity, and lightning strikes have increased dramatically since the apparent onset of these programs. Metallic particles increase atmospheric conductivity, increasing lightning frequency and intensity.
- State of California tests taken by aircraft of Pacific clouds from China show NO Aluminum or Barium, contrary to Shasta County Air Quality officials who stated China was the cause (again without testing themselves).

ARE FINE METALLIC PARTICULATES, LIKE ALUMINUM, HURTING OUR CHILDREN?

Asthma and other respiratory diseases have seen dramatic increases over the last decade, while Alzheimer's has become epidemic.

Harvard reports that particulates less than 10 microns poses a serious threat to human health. (source: http://earthlandinstitute.net/journal/index.php/eij/article/stolen_skies_the_chemtrail_mystery/)

The major mainstream paper, The Las Vegas Tribune, writes "... Especially disturbing for residents of heavily chemtrailed communities like Las Vegas is a "chemtrail sickness associated with heavy spray days leaving many stricken people complaining of the "flu" and acute allergic reactions..."

The BOTTOM LINE IS THIS:

We believe that Shasta County Air Quality officials have a legal, moral and political responsibility to locate the source of these alarming levels of contaminants in our water, air and land, whatever it may be.

If not their responsibility, then WHO?

WHY would the Shasta County Air Quality officials REFUSE to investigate these DANGEROUS FINDINGS in spite of repeated requests by Citizens and Supervisors?
